## TRANSFORMATION IS UNBELIEVABLE

Buying Power of Nation Greater and More Widespread Than Ever Before.

Washington, Jan. 1.-A view of business conditions throughout the country, made public by the committee of statistical ex-perts of the United States Chamber

ommerce, says:
The transformation within a twelvemonth of certain sections of the south in agricultural and business conditions seems almost unbelievable," and announces that with the exception of Texas and Oklahoma southern states have raised more than enough corn for their own needs and are in position to ship Throughout the country, the review says, "the extraordinary and abnormal demands made upon everyone, from farm-boy to corporation head, have left the nation steady and with heavy reserves

coming up for the new year."

The buying power of the nation is cial exemptions from child greater and more widespread than ever standards," the statement says, before, and apparently the general volumest with one accord regretted ume of business seems assured at some-thing like its present status during the coming winter months, the review adds, Taking up the changed conditions in the south, the review points to conditions caused in certain sections a year ago "by boll weevil, excessive rains and the fact that negroes, the staple agricultural laborers, were leaving by thousands for the Today, it says, the reports from those sections are "optimistic beyond expression."
The enlarged acreage of corn, which

has been of excellent grade except in Texas and Oklahoma, the report says, has provided sufficient to ship, and there is an "abundance of other feed for livestock, so that stockraising is becoming more and more an important adjunct to farming in the territory south of Mason

Regarding diversification of crops in the south, the review says "the produc-tion of peanuts from Virginia along the district for a society with Atlantic coast into southern Georgia and across into Oklahoma and Texas is bedollars." Cotton, it points out, is now the speing raised in a moderate way as far sion, south as Tampa bay.

Rice and sugarcane crops were not as substituta, large as in some past years, the review says, but brought higher prices. An unprecedented drouth in Texas hurt cattlelieved, but it has served to give impetus to efforts to raise goats and sheep."

Children's Bureau Points Out Necessity Maintaining Standards of Child Welfare.

Washington, Jan. 1.—The increasing secessity for maintaining standards of child welfare during wartime was pointed out today by the children's bureau in a New Year's warning, calling the attention of American citizens to the disastrous effects of exemptions from child labor regulations in foreign countries. "Foreign experience shows that countries which have permitted spe-cial exemptions from child labor

almost with one accord regretted them as both injurious to the children and inefficient as regards industrial results. The immediate penalty has been a swelling stream of child offenders pouring through the courts.

"Protection of babies and little children, and of their mothers—a first es-sential in wartime to replace the wastage of human life on the battlefield-demands local provision for adequate

demands local provision for adequate nursing and medical care. Federal protection not being available as yet, the full burden rests with each state and community. Shortage and high prices of milk in many communities also is a matter of grave concern. "Upon each community also must lie the responsibility for seeing that mothers are not driven by want to leave their children and go to work. "The father's wages must keep pace with the high prices, and, if he is called to the army the family's separation allowance is inadequate, the aration allowance is inadequate, the aration allowance is inadequate, the 600,000 members. This is across into Oklahoma and Texas is becoming a matter of great import, the best proposition ever product running into many millions of dollars." Cotton, it points out, is now the state provides no mothers' pending the state pending the st the mother's work is a costly

"Neither must the burden of support nor the pressure of demand for labor nor the pressure of demand for labor be allowed to rest upon the children themselves. The children's bureau during the new year will systematize further its enforcement of the federal child labor law, but school attendance requirements and many forms of child labor are not included in this law, and the bureau urges the importance of maintaining in each state the highest standards of training and protection." for 1917 show an increase of 57 per cent. for 1917 show an increase of 37 per cent. over 1916, according to figures given out by the Atlanta Clearinghouse association last night. REALTY TRANSFERS FOR PAST YEAR TAKE SLUMP

The war and the conditions attending are attributed by County Court Clerk Charley Watson to the decided falling off in real estate transfers for the year. The decrease for 1917 over the year 1916 amounts to \$148,738. The real estate transfers for 1917 are \$563,880, while those for 1916 were \$615,142. "There have not, of course, been as many transfers, or as much selling and buying of real estate." said Clerk Watson Tuesday morning, "on account of the extreme war conditions and the need of people for their money for other investments or other necessary expenditures. The coming year promises to find, unless the war conditions cease, even a decrease over the 1917 year. However, considering everything, I think the amount of the real estate transfers for both 1916 and 1917 most remarkable."
